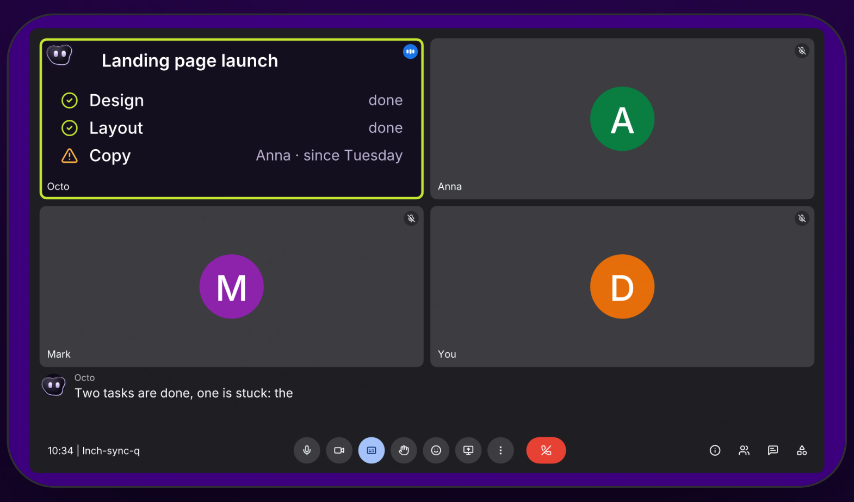
OCTO BY OCTOCREW · GO-TO-MARKET ON ONE PAGE · GROWTH MARKETING HACKATHON, PORTUGAL, 8 NOV 2026

Note-takers record the meeting. Octo takes part in it.

Octo joins your team's calls, answers when you call it by name, and after the call does the follow-up: everyone gets their own tasks, and ClickUp or Asana stays up to date. For a small team, it works like the junior project manager it hasn't hired yet.

> The plan: €700 on Meta and €300 on YouTube creators bring small teams to one button, "Invite Octo to your next call". Goal: 10+ invites in 7 days.



Octo
Two tasks are done, one is stuck: the

Octo on a call, answering on its own tile. People in the demo are made up.

---

01 WHO WE SELL TO

Small teams with no project manager yet

Up to 50 people. The founder or an ops lead runs the calls and is the only one who follows up.

Sharpest slice: remote agencies. Many client calls, on whatever platform the client picks; work in ClickUp, Asana, Trello or Notion.

Trigger: "Did that get done?" about something said on last week's call, and nobody wrote it down.

02 THE PROBLEM

Every call ends with "so who's doing what?"

There is no PM to chase follow-ups, so it falls on the founder.

Note-takers send a summary nobody acts on.

The tracker goes stale the day after the call.

The same status questions come back every week.

03 OFFER

Invite Octo to your next call

One button on the landing page. Today it opens an email; we set up the call and Octo joins it.

Now: early access, set up by our team. **Later:** self-serve SaaS for small teams.

Price: one price per company, no seats. Pay as you go from $20, or Starter $49, Team $99, Business $249 a month.

04 WHY OCTO WINS

	IN THE CALL	TASKS AFTER THE CALL	UPDATES THE TASK ON "DONE"	PLATFORMS
AI note-takers (Otter, Fireflies)	Voice Q&A on a wake word	Summary and action items	Not claimed	Meet, Zoom, Teams
Sembly	"Ask Sembly", by text	With owners and deadlines	Not claimed	Zoom, Meet, Teams, Webex
AI built into the suite (ZoomMate, Teams)	In-meeting questions	Follow-ups in its own suite	Not claimed	Tied to its own suite
Octo	By voice and on its own tile	Each person's own, by DM, with the exact quote	On the next call	Meet, Teams, Zoom, Slack Huddles, Webex, GoTo

From the vendors' own pages, checked 7 and 8 Nov. None of about 12 pages claims all four. "AI teammate", "meeting agent" and "follow-up" are taken, so we lead with what Octo does on the call.

05 CHANNELS AND THE €1,000

Meta ads Main channel	€700
YouTube creators Second channel	€300
LinkedIn Organic, one-liner A/B	€0
Reddit, communities Organic, no link spam	€0

€1–2
per click on Meta

350–700
clicks from €700

7–28
requests at 2 to 4%

Assumptions to check against Meta's forecast. Creators: 2 or 3 small productivity or AI-tools channels, a 30 to 60 second segment each.

06 FUNNEL

REACH	LAND	CONVERT	SET UP	ACTIVATE
Meta ad, creator segment or founder post	Landing page with the demo and the note-taker comparison	Invite Octo to your next call	Work email in; Oleksii invites them to a call	Octo joins the call and shows what it does

RECOVER — Visitors who land but don't invite Octo go into Meta retargeting from day 3.

07 GROWTH LEVERS

OUR PICK
Make every call a demo
A product-led loop: every call Octo joins shows it working to everyone on it. Guests assigned a task get it by DM, with the host's approval and an opt-out, plus a way to get Octo for their own team.

NEXT
Win the AI answers
Turn the note-taker comparison into a page that answers "which meeting assistant updates my tracker?", so ChatGPT and Perplexity can cite it. Week two onward.

FOCUS
One narrow use case
The weekly team call of a small team with no PM. Every creative, page and creator script speaks to that one call.

08 BOLD IDEA

Talk to Octo, not a sales rep

Next: the button books a call where Octo runs its own demo, answers questions by voice and sends the prospect a task afterwards, with Oleksii on every call in week one.

To check first: Octo switches to a reduced mode when an outside guest joins, and the prospect is a guest.

09 FIVE META CREATIVES

1 **The demo.** "This meeting bot talks back."
2 **The junior PM.** "Your team doesn't have a project manager. Now it does."
3 **Note-taker vs Octo.** "Your note-taker writes it down. Octo does it."
4 **The receipt.** "No more 'I never said that.'"
5 **Founder to camera.** "We don't have a PM. We have Octo."

10 SUCCESS AFTER 7 DAYS

10+
Invites from teams of up to 50 people

1
Meta creative that wins on hook rate and cost per request

1
One-liner that wins on LinkedIn

1+
Creator segment published

Targets are assumptions. There are no real results yet.

11 THE FIRST 7 DAYS

DAY 1	DAY 2	DAY 3	DAY 4	DAY 5	DAY 6	DAY 7
Landing live. Meta starts with 5 creatives. One-liner 1 on LinkedIn. 5 creators contacted.	One-liner 2. Answer 5 Reddit threads.	Pause the 2 weakest creatives. Retargeting on. One-liner 3.	Confirm 2 or 3 creator segments. One-liner 4.	Move budget to the best creative.	First creator segment goes live.	Read the numbers. Keep, kill or double.

12 RISKS WE ARE DESIGNING AROUND

Bots in meetings	Consent and bot fatigue run through 18 of 34 public quotes about note-takers (Hacker News, Zoom Community, Trustpilot). Teams choose which calls Octo joins, and it joins visibly as a participant.
Client calls	When an outside guest joins, Octo switches to a reduced client mode. We lead with the team's own calls and add client calls once that mode is ready.
The audience is a bet	No public quote so far comes from a founder-led team without a PM. Five buyer conversations this week validate or change the ICP.
Sembly	Sells "AI meeting agent" to the same client-facing teams: $10 to $30 per user per month billed annually, 7-day free trial. We lead with voice on the call, tasks updated on "done", and six platforms.
